04 Development v7[1]PAN.docx

Hi Kate,

Sorry to be slow on this. I am trying to adjust to the new software.

Attached is Chapter 4 with the changes addressed. I left two comments for you to see and delete. I don't know how to make columes in the box. I made the other changes and accepted them.

Phil

Subject: outstanding Chap 4 comments

Hi Phil,

Could you have a look through the latest version of Chap 4 and see if you can address any of the outstanding comments?

My plan is to send Chap 4 and Chap 6 to the technical editors late today, so at that point they become the holders of the official versions (we can still make changes, but they'll have to go through me for version control purposes).

Thanks! Kate
